KEY {To facilitate reference to the following pages of Bradshaw's Guide and General Handbook for the whole Continent of Europe.

Maps.

Map of Europe—This Map shows all the Railways now Open upon the Continent of Europe. The **Thick Figures** printed upon the surface of the Map have reference to the page on which the trains of the particular line of Railway to which they are attached may be found. See explanation in the margin.

The information is given in the following order:

List of Customs' Dues—Page ii.

Continental Weights with their English value, ii.

Measures of Distances on the various Continental Railways, page ii.

Contents—Pages **iv.** to **xv.** inclusive, contain an alphabetical list of all the Railways on the Continent of Europe, together with the General Contents of the book.

Index.—From pages **xvi.** to **xl.** inclusive, give most of the Railway Stations throughout the Continent, and a complete list of all the places described in the Guide.

Pages **xli.** to **xlviii.** contain **General Instructions to Travellers**; and amongst these, the **Post Office** Regulations are contained on pages **xlvii.** and **xlviii.**

Passport Information—From pages **xlviii.** to **li** inclusive.

Foreign Money Tables, page **lii.**

Skeleton Through Routes.—Pages **1** to **11** inclusive, are occupied with these routes which are intended to assist the traveller in deciding upon his Route before leaving England.

Railway Time Tables.—These are arranged in Sections (see head of Contents, page **iv.**), and extend from pages **12** to **302** inclusive.

Railways in **France**, from page **12** to **78**.
Do. **Belgium**, from page **80** to **107**
Do. **Holland**, from page **108** to **114**.
Do **Germany**, from page **13** to **79** and from **115** to **203**.
Do. **Austria**, from page **204** to **232**.
Do. **Switzerland**, from page **236** to **249**.
Do. **Italy**, from page **250** to **267**.
Do. **Spain**, from page **268** to **276**.
Do. **Portugal**, page **276** and **277**.
Do. **Denmark**, page **278** to **281**.
Do. **Norway**, page **281** and **282**.
Do. **Sweden**, page **279**, **282**, to **285**.
Do. **Russia and Finland**, pp. **286** to **292**.
Do. **Poland**, page **289**.
Do. **Turkey**, page **293**, **293**, and **297**.
Do. **Roumania**, page **293**, **296**, **299**.
Do. **Egypt**, page **294** to **296**.
Do. **Greece**, page **295**.
Do. **Tunis**, page **295**.
Do. **Algiers**, page **296**.
Do. **England**, page **299** to **302**.

Arrangement of Trains.—As nearly as possible these are arranged according to priority of time, from the left hand to the right of the page. To economise space sometimes a later train will be found put before an earlier one, and occasionally extra trains will be found printed at the side or bottom of the pages. Continental Trains run the same on Sundays as on week days.

Dark Lines.—A mark thus ___, or thus **Stop** indicates the total stoppage of the train at that point; if any train is shown below in the same column, it is an independent one.

A mark thus—in the distance column denotes that the mileage is reckoned from the Station opposite which it appears.

Bold Figures—Thus (**24**) are placed at junctions and termini, and refer to pages of the Guide, by which the traveller is enabled to extend his journey from one Company's line to another.

Bi-Monthly Almanac and Tide Table.—This is given at page **303**, and gives the time of high water at principal Continental and British Ports.

Steamers.—Pages **304** to **329** inclusive, give a complete list (Alphabetically arranged) of all the Steamers to and from English and Foreign Ports. Steamers on Lakes & Rivers, pp. **330-333.**

Diligences.—A full list of these are given and arranged alphabetically from pages **336** to **348.**

Descriptive Portion.—The pages from **349** to **554** are occupied with short notices of the principal Railway Stations and Towns on the Continent, arranged under the heads of the respective Countries in which they are located.

Pages **683** to the **End** contain Steamboat, Hotel and other miscellaneous advertisements.

Special Edition.—MAPS AND PLANS

Maps of **Paris.** **France, Belgium, &c.** **Switzerland,** and the **Rhine.** } Upon which the several Railway Communications are shewn upon a larger scale than they are given on the Map of Europe.

The Plans of Towns are bound separately in a small book, and arranged as follows:—

Paris.	**Frankfort-o-M**	**Genoa.**
Lyons.	**Dresden**	**Milan.**
Marseilles.	**Hamburg.**	**Naples**
Ostend.	**Munich.**	**Rome.**
Ghent.	**Berlin.**	**Turin.**
Brussels.	**Trieste.**	**Venice.**
Antwerp.	**Vienna.**	**Verona.**
The Hague.	**Geneva.**	**Palermo.**
Cologne.	**Florence.**	**Constantinople.**
Mayence.		

In addition to the information contained in the 2/0 Book, the **Special Edition** includes the following additional Routes, and notices of Towns:

Pages **555** to **566** inclusive, contain itineraries of the **Alpine Passes** and **Italian Lakes.**

Pages **566** to **612** inclusive, contain 36 Routes in **Italy Switzerland, France,** and **Spain,** and from **Vienna** to **Bucharest** and **Constantinople.**

Pages **612** to **656** contain notices of the principal Towns in **Tunis, Russia, Finland, Sweden, Lapland, Norway, Denmark, Schleswig-Holstein, Turkey, the Levant, Greece.**

For account of the **Holy Land**, see page **657.**

Algeria, p. 674; **Cyprus**, p. 676.

Egypt and **Overland Route to India**, p **663.**

Vocabulary in English, French, German, and Italian, page **680.**

BRITISH TARIFF.

	Duty. £ s. d.	Per
Beer and Ale, according to strength ..... from 8/ to	0 16 0	Barrel.

Continental Weights with their English Value.

France, Belgium, Italy, Spain, Portugal	1 Gramme = 15·433 Grains. 10 Grammes = ¼ oz. 15 Grammes = ½ oz., nearly. 1 Kilogramme = 2 1-5th lbs. English. 10 Kilogrammes = 22 lbs. English.
Holland	1 Pond = 2 1-5th lbs. English. 10 Pond = 22 lbs. English.
Germany	2 Pfund = 1 Kilogram = 2 1-5th English lbs. 1 Centner = 110 pfunds = 113½ Eng. lbs.
Prussia, Saxony, Denmark and Norway, Switzerland	1 Pfund or Pund = 1 1-5th lb. English. 10 Punds = 12 lbs. English.
Sweden	1 Skälpund = 15 ounces English. 100 Skälpunds = 93 lbs. English.
Würtemberg	1 Pfund = 1·03 lb. English. 100 Pfunds = 103 lbs. English.
Russia	1 Punt = 14½ ounces English. 100 Punts = 90½ lbs. English.
Austria	1 Pfund = 1¼ lb. English. 100 Pfunds = 123½ lbs. English.
Turkey	1 Oke = 2 4-5th lbs. English. 1 Rottolo = 1¼ lb. English. 100 Okes = 283½ lbs. English. 100 Rotolos = 125 lbs. English.

MEASURES OF DISTANCES ON THE CONTINENTAL ROADS AND RAILWAYS.

France, Belgium, Italy, Spain, Portugal	1 Kilometre. = 1093·633 yards, or nearly 5 furlongs. (A Mètre, the basis of all French measures = 3·281 foot = 3 feet 3⅜ in.) 1 Eng. Mile = 1·621 Kilomètre.
Holland	1 Mijl (myl) = 1093 633 yds., or 5 furlongs.
Denmark	1 English Mile = 1·693 Mijl. 1 Danish Mile = 4·682 English Miles.
Norway	1 Eng. Mile = 0·213 = less than ¼ Dan. Meile. 1 Norwegian Mijl (myl) = 7·021 Eng. Miles.
Sweden	1 Eng. Mile = 0·142 = 1-7th Nor. Mijl (myl). 1 Swedish Mile = 6·644 Eng. Miles. 1 Eng. Mile = 0·151 = less than 1-6th Swed M
Continental Feet—In Spain, 11·13 inches. Holland and Saxony, 11·14. Bavaria, 11·67. Sweden, 11·9. Denmark 12·32. Prussia (fuss), 12·36. Austria, 12·5. France (pied), 12·8. Portugal, 12·9 inches	
Prussia	1 Prussian Meile = 4·681 English Miles 1 Eng. Mile = about 1-5th Prussian M
Saxony	1 Saxon Meile = 4·66 English Miles 1 English Mile = about 1-5th Saxon Mc
Würtemberg.	1 Würtemberg Meile = 4·628 English Mi 1 Eng. Mile = about 1-5th Würtemberg M
Austria	1 Austrian Meile = 4½ English Miles. 1 Eng. Mile = about 1-5th Austrian Meile
Switzerl'nd	1 Schweizerstunde = 2·982 English Mi 1 Eng. Mile = over 1-3rd Schweizerstu
Russia	1 Verst = ·663, or 2-3ds English Mile. 1 English Mile = 1·508 = over 1½ Versts
Turkey	1 Berri = 1·038 English Mile. About 25 English Miles = 24 Berri

1 Degree = 60 geographical miles = 69 1-6th English statute miles = 9·85 Norway miles 10·41 Swedish mil = 14·77 Danish miles = 15 German miles = 20 Holland ure = 23·15 Swiss stunden = 104·3 Russian versts = 11 French Kilomètres.

Switzerland, Tour in 495

Tyrol and Styria 484

Vocabulary in English, French, German, and Italian (Special Edition) 680

Differences of Time between LONDON (or Greenwich) and principal places in Europe.

	H. M.			H. M.	
Amsterdam (Holland)	0 20	earlier	Hamburg (Germany)	0 40	earlier
Alexandria (Egypt)	1 58	earlier	Helsingfors (Russian Finland)	1 40	earlier
Athens (Greece)	1 35	earlier	Lisbon (Portugal)	0 36½	later
Berlin (Prussia)	0 53½	earlier	Madrid (Spain)	0 14½	later
Brindisi (Italy)	1 12	earlier	Moscow (Russia)	2 30	earlier
Brussels (Belgium)	0 17½	earlier	Munich	0 46½	earlier
Christiania (Norway)	0 43	earlier	Odessa (Russia)	2 11	earlier
Cologne (Germany)	0 28	earlier	Paris (France)	0 9½	earlier
Constantinople (Turkey)	1 56	earlier	Prague	0 58	earlier
Copenhagen (Denmark)	0 50	earlier	St. Petersburg (Russia)	2 1	earlier
Dublin (Ireland)	0 25½	later	Smyrna (Turkey)	1 49	earlier
Edinburgh (Scotland)	0 12½	later	Rome (Italy)	0 50	earlier
Geneva (Switzerland)	0 24½	earlier	Stockholm (Sweden)	1 12	earlier
Gotha (Germany)	0 43	earlier	Vienna (Austria)	1 5½	earlier

Thus, when it is Noon or 12 o'Clock at London, it is 11.24 a.m. at Lisbon; 11.35 a.m. at Dublin; 11.45 a.m. at Madrid; but at Paris, it is 12.9 p.m.; Brussels, 12.18 p.m.; Amsterdam, 12.20 p.m.; and so on, for all places earlier. At New York, at the same moment, it is only 7.4 a.m. The differences are at the rate of 1 hour for every 15 deg. long.; or 4 min. for 1 deg.; and 4 sec. for 1 minute.

NEW OPENINGS FOR MAY.

Belgium.—Lichtervelde to Thielt.
France.—Velu to Rocourt.
Spain.—Marchena to Ecija. Seville to Huevla.
Majorca.—Inca to Manacor. Empalme to La Puebla.

The Summer Service will probably be inaugurated by the 15th May, in all parts of the Continent.

Notices of some of the Principal Towns, &c. in the following Countries.

Russia, with Notices of Principal Towns, page 613; **Finland**, page 623; **Sweden**, page 624; **Lapland**, page 630; **Norway**, page 631; **Denmark**, page 636; **Schleswig-Holstein**, page 639; **Turkey**, page 640; **The Levant**, page 650; **Greece**, page 653; **The Holy Land**, page 657; **Egypt**, **Overland Route to India**, p. 663; **Suez Canal**, p. 669; **Algiers**, 674; **Cyprus**, 676; **Tunis**, 678; **Bucharest, in Roumania**, 611; **Vocabulary in English, French, German, and Italian**, page 680.

It also contains Maps of the following places:—

EUROPE, FRANCE, SWITZERLAND, THE RHINE, PARIS, LYONS, MARSEILLES, OSTEND, GHENT, BRUSSELS, ANTWERP, THE HAGUE, COLOGNE, MAYENCE, FRANKFORT-ON-THE-MAINE, DRESDEN, HAMBURG, MUNICH, BERLIN, TRIESTE, VIENNA, GENEVA, FLORENCE, GENOA, MILAN, NAPLES, ROME, TURIN, VENICE, VERONA, PALERMO, CONSTANTINOPLE.

INDEX OF TOWNS, &c.,

OWING THE PRINCIPAL RAILWAY STATIONS UPON THE CONTINENT OF EUROPE.

NOTE.—For convenience of reference, the Guide is divided into two parts, viz., Tabular and Descriptive. The following Index the Traveller will find no difficulty in ascertaining which portion is referred to, by recollecting that the Tables end at page 308, and the Descriptive matter begins at page 349, consequently all below 308 refer to the Time Tables, all above 348 to the Descriptions.
Towns in connection with Steam Sailings (see page 304) (and Diligences (see page 336) are omitted in the Index, as they appear in their respective places in the Guide, in Alphabetical Order.
To avoid multiplying figures in this Index, the route in connection with each town is only given once, the first Journey will, in many cases, be found on the following page.

TO TRAVELLERS.

THE best thanks of the Editor will be given to any Traveller who may do him the favour to point out inaccuracies in this Work, or furnish any information which will be useful to Travellers in general—addressed "W. J. ADAMS & SONS, 59, FLEET STREET, LONDON, E.C." With this view, a few leaves of writing-paper, for stray remarks, are introduced at the end of the Special Edition. Please write only on *one* side of the sheet, if possible; and note the *article, page,* and *date* of the CONTINENTAL GUIDE referred to. All *names of Places and Persons* should be written very distinctly.

To Correspondents.—The Editor begs to acknowledge with many thanks the receipt of communications from J. S. (London); Dr. B. (London); E. C. (Paddington); G. A. W. (London); H. S. (London); Col. P. (Brighton); C. N. (Paris); Dr. M. (Mentone); M. F. (Culoz); Dr. R. H. (Cologne); Rev. C. de C. (Aachen); Dr. W. (Geneva); L. H. (Pisa); Messrs. C. W. & Co., (Messina).

The SPECIAL EDITION of the CONTINENTAL GUIDE contains additional information, together with Thirty one Maps, price 3s. 6d. (per post, 4s.)

NOTICE.—*The Time Tables of Railways, Steamers, List of Hotels, &c., contained in the monthly issues of the* **Continental Guide** *are compiled with as much care as circumstances will permit; but it must be distinctly understood that the Publishers do not hold themselves in any degree responsible for inaccuracies.*

The Tables are based on the latest information as **supplied by the respective authorities at the time of going to press**; *but inasmuch as changes are frequently taking places abroad, often in the middle of the month, Travellers are advised to* **compare the Tables here given with the Local Tables** *to be seen in the Hotels, at every possible opportunity. We shall be obliged by any special information as to changing carriages and Railway Stations at Junctions; in order to note them in the Tables.*

I.—TRAVELLING ON THE CONTINENT.

Beneficial effects of change of climate.

"There must certainly be something more than mere fancy in the sudden improvement which many "experience in their feelings and general state of health by leaving England for a tour on the Conti-"nent. I would say to the dyspeptic and the bilious, to those who labour under hypochondriacal "diseases and a sorry state of the digestive organs—embark for the Continent (and pray Heaven that "you may be sick in crossing the Channel), and take a journey along the banks of the Rhine by "Steamer, which, with its soothing and diverting effects, I would not hesitate in my capacity of physi-"cian to recommend amongst the most powerful auxiliaries for the cure of bad stomachs and the "bines."—*Dr. Granville.*

Health Resorts.—For an Account of Foreign Health Resorts, see Dr. Lee's Works: "The Baths of France, Switzerland, Nice, and its Climate. The South of France, &c." W. J. Adams and Sons, 59, Fleet Street.

Foreign Tours.—Tourists will obtain the most reliable and valuable information from Mr. F. Y. EDWARDS, whose name we mention with great confidence, his experience enabling him to map out Continental tours to all parts, with such accuracy and minuteness as must tend considerably to the comfort of travellers, and practically remove all the difficulties which beset foreign travel. Detailed particulars relative to tours (personally conducted if desired) providing hotels, fares expenses, foreign moneys, objects of interest, &c., can be obtained at a small charge. A written appointment is necessary to ensure an interview with Mr. F. Y. EDWARDS, addressing the

Anglo-American, Eastern and Continental Travelling Agency [established 1872,] 37, Norfolk Street, Strand, London, W.C. Ocean passages to all parts of the world are secured on receipt of draft at the lowest rate of passage money without any charge whatever to intending travellers, and full preliminary particulars supplied to enquirers on receipt of stamp.

Messrs. Cook and Son's Agency.—At the Chief office, Ludgate Circus, or their branch offices, at home and abroad, particulars may be obtained of Continental Tours and Excursions, by single, return, and circular tickets, or by International Travelling Tickets; including Coupon tickets for board and lodging for one or more passengers, or for parties personally conducted if required. The Routes comprise the chief towns and resorts in England, and on the Continent, the East, the United States and Canada; also trips round the World, or by Steamers of the various Companies to all parts of the globe.

Bradshaw's Diary and Traveller's Companion.—An improved Edition: comprising Tables for recording particulars of journeys, routes, fares, travelling expenses, luggage, hotels, places visited, engagements, jottings or log of land and sea tours, &c., Railway Stations and Street Plans of London and Paris; together with miscellaneous information calculated to be of use to all Travellers and Tourists. Price 2/6; to be had at Messrs. W. H. SMITH's bookstalls at all Railway Stations and of the Publishers, 59, Fleet Street, London, and Albert Square, Manchester.

Couriers.—Families, Ladies, or Gentlemen, requiring a Courier and Travelling Servant, may hear of experienced persons, on application (per letter or otherwise) to W. J. ADAMS & SONS, 59, Fleet Street, London (E. C.), who will forward the address of a Courier, or insure personal attendance on Travellers at their own residence in London or engage them if preferred.

Soap.—Travellers should provide themselves with this article (which can be had of W. J. Adams, 59, Fleet Street) beforehand; otherwise they will find it to be a serious item in their bills, soap being a rare article in Continental Hotels; it is always charged about 75 cents. A **Portable Bath** is a useful thing; as in many places baths are either very small, or else unknown.

Dress.—The following ought to be sufficient:—A plain morning coat of black cloth, with grey or tweed trousers, and light vest; six shirts; the same number of pairs of socks; two neck and six pocket handkerchiefs; one pair of boots off, another on, (elastic kid dress-boots pack best;) and a pair of slippers. The following outfit for **Pedestrians** is recommended:—Strong tweed coat and waistcoat. Flannel trousers. Canvas gaiters. Double soled boots. One Flannel shirt on; one off. One pair of *Kid* shoes, *which pack quite flat without cutting*. Half-a-dozen white collars. One pair woollen or lambs wool socks on; one pair in knapsack. One pair tweed trousers. Two pair cotton socks. One pair of slippers. One neck tie. Portable dressing case to hold comb, razor, and tooth brush. Light waterproof coat which strapson outside of knapsack

Shoes or Laced Boots.—These should be double-soled, with three rows of hob-nails; but without iron heels, which are dangerous, and liable to slip in walking over rocks. They should be well greased outside; and loose leather soles inside are good.

Knapsacks, Railway Rugs, Waterproof Coats.—Tourists should be provided with a Macintosh Knapsack, which is lighter than any that can be bought abroad; also a Rug for Night Travelling, and a Waterproof Coat. These can be obtained from W. J. Adams & Sons, 59, Fleet St.

Portmanteaus are better purchased in England than anywhere else.

Polyglot Washing Books can be obtained of W. J. Adams & Sons, 59, Fleet-street; price 1s. each; post free, 1s. 1d. Family Washing Books, price 1s. 6d. Washing can be done at any of the Hotels during the night. In ordering these books, state the language required, and if for a lady or gentleman.

Field and Opera Glasses, Telescopes, &c., can be had of W. J. Adams & Sons, 59, Fleet-street.

Purses.—A stout leathern purse or canvas bag, to hold silver crown pieces, dollars, etc.; besides one or two leather straps, to keep together small parcels, will be found very useful.

Writing-case.—Portable writing and dressing-cases are better procured in England.

Umbrella.—A strong one, to serve as a walking-stick, is the best.

Lucifers.—Never travel without wax-lights in a metal case.

Measuring Tape.—A wheel tape (about 6 yards) will be found useful.

Door Fasteners.—These are useful to travellers to ensure privacy in Continental hotels. W. J. Adams, & Sons 59, Fleet Street, has always a stock of excellent door and window fasteners.

The Traveller's Reminder.—1. CLOTHES.—Coat, Trousers, Waistcoat, Great Coat, Flannels, Drawers, Shirts, Night Shirts, Socks, Handkerchiefs, Collars, Cuffs, Boots, Slippers, Rug and Cap. 2. TOILET.—Hair Brush, Comb, Looking Glass, Clothes Brush, Nail Brush, Tooth Brush, Tooth Powder, Pomade, Soap, Scent, Smelling Salts, Studs, Ties, Gloves, Sponge. 3. STATIONERY.—Writing Case (fitted), Labels, Note Book, Pencils, Maps, Books, Knives, Scissors, Washing Book, Needles, Thread, String, Pins. 4. NICK NACKS.—Snuff, Cigars and Case, Matches, Corkscrew, Gimblets, Hat Guards, Pills, Sling Strap, Spectacles, Binocular, Pocket Compass, Flask, Umbrella.

Passports.—A Foreign Office passport, the price of which is now reduced to 2s., can be obtained through W. J. Adams & Sons, 59, Fleet Street. For particulars, see pp. xlviii to li. N.B.—Always carry your Passport in your pocket, folded in a case with your name on it. It is valuable under all circumstances abroad, as a means of identification.

Landing on the Continent.—No sooner does the steamboat reach port, than the traveller finds himself mobbed by the porters and *employés* of the different Hotels; showers of cards will be poured on him, and the prices charged bawled out. To avoid all this, let him determine on his Hotel *beforehand*, and name it at once, when the agent will immediately step forward, and take the new arrival under his protection to the Hotel. It is advisable not to ask Cabmen at a Station about Hotels, as they may possibly drive you to the wrong one.

Custom-house Regulations.—Passengers on landing, are not permitted to take more than one small bag with them on shore. The Custom-House Porters, who are responsible for the luggage convey direct from the vessel to the Custom-House, to which the owner, to save personal attendance, should send the Hotel Commissionaire afterwards with the keys. The Commissionaire will also obtain the necessary official signature of the police to the traveller's passport. The landlord of the inn is responsible for his honesty. When passing your own luggage you will find that at no time are courtesy and good-humour better repaid than during its examination. Never be in a hurry; collect your packages and open them one by one yourself, lock one before the next is "visited." The officers are only doing their duty, and can make that duty very disagreeable in return for any hauteur or want of courtesy. Always "declare" any article you believe liable to duty, and remember that every Custom House Officer abroad can search your person if he chooses.

CAUTION.—All articles such as wearing apparel, not having being worn, must be declared at the Custom-house. Travellers not conforming to this regulation, will incur not only the confiscation of the articles not declared, but also the payment of a fine. Silks, lace, and other foreign

Digitized by Google

goods, packed with articles of apparel, or, otherwise concealed, are, as well as the articles in which they may be placed, liable to seizure; and travellers are warned that the seizure is strictly enforced unless the examining officer is informed of the articles being in the package and the goods duly declared previously to its being opened. For **British Tariff**, see p. II.

Hotel Key.—Always lock your door on leaving your room, and if going for a walk, hang the key on the number of your room, on the key board. The Landlord is then (*and* **only**) responsible for the safety of your room; while visitors learn more easily that you are out. When the key is the only handle to the door, take care not to leave the room without it. To ensure being called in proper time, mark the hour against the number of your room on the slate or board.

Fees to Waiters.—In most cases the "*Service*" is added to the bill; otherwise one franc, (or about that amount in other money,) per head (adults), per day, is liberal.

Children.—Children travel free (if accompanied by an adult) up to the age of three years, throughout the greater part of the Continent. In Austria and Switzerland children travel free up to two years, but are generally allowed to pass without payment for a year longer. In England, Norway, and Sweden, children between the ages of three and twelve, pay half price; in Austria and Switzerland, between the ages of two and ten, they pay half-price. In Prussia, two children under the age of ten travel with one ticket; a single child paying full fare in 3rd class, travels in 2nd class, or paying 2nd class fare travels in 1st class. In Belgium, three-quarter fare from three to eight years of age; and in France, half fare for those between three and seven. As a rule, children travelling at half price are allowed less free luggage than adults; in France they have a free allowance of only 20 kilos. (44lbs instead of 30 kilos. (66lb.) It is always advisable to shew the child who is to travel either gratis or at reduced price to the booking-clerk; and in France it is usual to stamp "ENFANT" upon the ticket of the adult who accompanies the child, to save disputes as to age at the end of the journey

Coaches and Diligences.—Notwithstanding the development of the Railway system on the Continent, which has left scarcely one town of any importance unprovided with Railway communication, travellers still find it convenient to avail themselves of public conveyances. They are still numerous in mountain districts; especially in Switzerland, the Tyrol, the Highlands of Bavaria, the Black Forest, Western Austria, &c. Fares are generally low, and the carriages often really comfortable, though not invariably good in all parts. In Spain the coaches mostly are comfortable, but the fares enormously high, often 4d. per English mile. Throughout the German Empire (except Würtemberg and Bavaria, where the rate is *less* by two-fifths), the uniform fare by Diligence and Post-coach is now 10pf. per kilometer, or 1½d. per Eng. mile. In Austria, fares vary from 1d. to 2½d. per Eng. mile; and coaches are in general expensive, slow, and tedious. In Belgium and France, fares are also reasonable, seldom exceeding 8 centimes per kilomètre (1½d. a mile). In Switzerland the coaches are invariably comfortable, and their speed is such as to satisfy most travellers. The fixed rate is 65 centimes per Stunden (2d. per Eng. mile); and 1 fr. (3d. per mile) for the same distance over the Alpine Passes, which are traversed by sledges during Winter. The coupé is 5 c. (½d.) per Eng. mile dearer; but this is only found on the larger diligences, and is an exception to the rule. Children under 10 and over 3 half price. About 44lb. of luggage are carried free of charge; and return tickets are sometimes issued at a small reduction.

Luggage.—Free allowance on English lines, 112 Eng. lbs.; on the Continent in English lbs.:—

Germany.....50 lbs. to all classes.	Russia .....55 lbs. to all classes.
Austria .. ..55 lbs. do.	Spain .....66 lbs. do.
France..... 66 lbs. do.	Sweden.....66 lbs. do.

On P. & O. Steamers 336lbs.; on Indian Rails 60lbs.; on American Rails and Steamers 250lbs.; on Pacific Mail Steamers 336lbs.

Excess Luggage.—The following will help to give some idea of the charge for Excess luggage. (See Foreign Weights, page II.)

Austria ..60 lbs. cost ½ of 3rd class maximum fare.	France...62 lbs ½ of 3rd class maximum fare.
Bavaria ...50 lbs. do.	Würtemberg...40 lbs. do.

The charges for luggage in Belgium and Italy are very high; no allowance is made. No allowance, in Holland or Switzerland.

NOTE.—A receipt for luggage must be procured before starting (even if there be no charge made, and no excess weight), and without this receipt the luggage will not be given up.

Luggage should be estimated in amount, as light, and as portable as possible. For a gentleman a short and deep portmanteau, strengthened to resist the pressure of heavier packages, will be most convenient. The name and place of destination should be distinctly written on the cover. In case parties cannot travel without carrying with them a large quantity of baggage, it may be better to send it on in transit per Luggage Train; as by this mode a saving may sometimes (though not always) be effected. As a rule, however, never part with your luggage. Baggage registered to be sent on *en transit*, cannot, it must be remembered, be got at by the owner till it has reached its destination, though it may be conveyed by the same train with himself.

Passengers with through Tickets can register their Luggage by all through services between London and Paris, (*via* Dover and Calais, Folkestone and Boulogne, and Newhaven and Dieppe); also between London, Brussels, and Cologne, and many of the principal cities of the Continent, (*via* Dover and Calais). Unless the Baggage by the Mail Trains is registered, it may be detained at the Landing Port for the following Train.

Travellers taking through tickets from Calais to Stations on the Rhine beyond Cologne, need not register their luggage beyond Cologne, as all luggage, without exception is examined there. Luggage unlocked is refused on some German Lines. At the same time, locking is not always a protection abroad.

Porterage of Luggage.—Travellers will save much trouble and many over charges by asking the proprietor of the hotel to which they go, to settle with the porter for luggage.

Fiacres, Vigilantes, and Cabs.—The Driver always expects a few sous for himself. *(pour boire.)* Pay this with your fare, and so appear to know the custom and thus avoid extortion.

Railway Carriages.—These have (as in England) much improved of late, even on the Continent, which has always left us far behind in this respect. As a rule, it may be said, that the carriages are much more comfortable in the North than in the South of Europe, and that, with few exceptions, throughout the whole of Germany and the greater part of German-Switzerland, the 2nd class carriages are something better than 2nd class in England. The 2nd and 3rd class in Belgium, France, and Italy, are now very much more spacious, comfortable and clean, than formerly. The difference between 1st and 2nd class carriages on the Continent generally is perhaps quite equal to the difference in the fare. On many of the French Express trains, and on nearly all trains in Baden, Würtemberg, and some other parts of Germany, wagons containing water-closets are attached.

Sleeping Carriages.—The Mann Boudoir Sleeping Car, having beds, lavatories, water-closets, and other appointments rendering travelling more comfortable, will be found on many Continental Railways, at a moderate extra charge.

During the five or six winter months, the carriages (1, 2, and 3 class, without exception) are well heated with iron stoves throughout the greater part of Northern Europe, Germany, and Switzerland. When not heated with stoves, foot-warmers are provided; but in Belgium and in France (as elsewhere in the South of Europe) these are only found in 1st class carriages, and are always provided and changed when required, free of any charge whatever. Those who object to **Smoking**, can almost always procure a carriage in which smoking is strictly forbidden. Except in Germany, smoking is only allowed on sufferance, and those who object have only to insist upon their right; those who cannot make known their wishes from their ignorance of the language have only to point to the notice generally attached to the non-smoking carriages; which hint proves for the most part sufficient. As a rule, Ladies have no difficulty in procuring a ladies' compartment; indeed carriages are generally reserved for them on all through-trains, on most lines on the Continent.

Railway Fares.—These can easily be ascertained without difficulty, a fare-table being nearly always attached to the booking-office. In Belgium, Germany, Switzerland and Italy, the fare is legibly printed on the tickets, which is a great guarantee to the inexperienced traveller against fraud on the part of the booking-clerk. The fares on the Continent are very much lower than in England, being the lowest in Belgium, Bavaria, Baden, Würtemberg, South Italy, Norway, Sweden, and North Germany. In Austria, the fares by the slow trains (Goods with Passengers) are little more than half the ordinary fares. In Belgium, the fares are often only one-third those charged in the United Kingdom; and in the other countries mentioned, are very far below our own. Considering the comfort and convenience, the 2nd class carriages in Central Europe are far cheaper and more to be recommended than the 1st and 3rd classes; the 1st being very much dearer than the 2nd, without corresponding advantage, and the 3rd, little cheaper than the 2nd, and far inferior in every respect.

Return Tickets.—Almost universal abroad, and issued upon terms far more liberal than any granted by our English lines. As a rule, they are only available for the day on which they are issued; but in Germany they are often available for from two to five days, and in France on some lines for two days, or from Saturday to Monday. Whenever Return Tickets are issued, they are issued to 3rd class passengers. They are issued in Baden, Bavaria, Denmark, Holland, and Würtemberg, at a fare and a half for the double journey (i.e. a reduction of 25 per cent. off the double fare); in Belgium and Switzerland, at a reduction of 20 per cent., or at the rate of 1 3-5th fare; in Saxony generally at a fare and 1-3rd; in North Germany at a rate varying from a fare and 1-7th to a fare and 3-5ths. In Austria, return tickets are not yet general, but are sometimes issued. In France the rates are as follows—on the Nord Railway 1½ fares (1 7-10 fare for 3rd class); on the Ouest Line 1½ to 1¾ fare (though occasionally lower); on the Paris, Lyons, and Mediterranean Line, 1½ to 1¾ fare (issued only on special occasions and to large towns); on the Est, 1½ fare (except out of Paris, which is 1¾ fare and more; on the Orleans and Southern (Midi) Lines, return tickets are only issued to and from a few stations. In Italy, Return Tickets (1 day only), are issued at an average rate of a fare and two-thirds. Return Tickets are not always available by Express trains; inquiry should be made.

Railway Time (Differences of).—See page iv., which gives the Times of the respective countries; as, Paris time for France; Brussels time for Belgium; and so on. The traveller going about should set his watch to local Railway time in order to keep even with the Tables.

Telegraphic Communication.—Throughout the whole of Belgium and Switzerland, the tariff for inland messages is fixed at 50 centimes (5d.) English travellers in Switzerland, are advised in the height of the season to telegraph beforehand for bed-rooms at the fashionable hotels along the beaten track. In most countries the local rates are low.

Switzerland and Mountainous Districts.—Pocket Aneroid Barometers for measuring heights with great accuracy are kept for sale by W. J. Adams & Sons, 59, Fleet Street. Travellers, ascending mountains, should be provided with a frock of oiled silk, as the best protection

Digitized by Google

against the weather. A belt round the waist and a mountain-pole, are also of service. The best restorative is tea. Provisions should be conveyed in a knapsack or haversack, of which the Guide will take charge, and the contents of which he will expect to share. The traveller should never lose sight of his Guide, especially near glaciers. Persons subject to giddiness, should not ascend heights.

Travellers visiting the glacier passes will find great comfort from Glycerine, applied to the face before starting; and a small bottle should be carried in the pocket, from which the lips may be anointed from time to time, to prevent the excoriation from which some persons suffer. It is also efficacious as a cure, but prevention is better. Price & Co.'s Glycerine is the best, and may be had of W. J. Adams & Sons, 59, Fleet Street. See Swiss Section of this *Guide*.

Cholera—Mosquito Bites.—Water—A simple remedy for Cholera and Dysentery, used in Syria by the natives, is powdered charcoal (made from burnt bread); a teaspoonful of which, in a cup of sugarless coffee, is a good daily dose. For *Ant*, *Insect*, or *Mosquito Bites*, bathing the parts in milk and vinegar is a good corrective. Or, dissolve carbonate of soda in a teaspoonful of water; warm over a candle, and apply. Or, touch the bite with strong spirits of ammonia; a phial of which for the waistcoat pocket may be had of most Chemists abroad, for 1 fr. or 1 m. Arnica is good for sprains. To clear water, use a little alum powder, or a few peach stones. Where water is suspected, take common wine, tea, coffee, soda-water, or some other mineral water.

Picture Galleries.—See Miss Kate Thompson's "Hand book to the Picture Galleries of Europe," for lists of the best Paintings in every collection of importance.

Fees at Churches, Galleries, &c.—One franc, or about that value, is enough for a party, except in cases where the Galleries are not usually shown to travellers; or, 50 centimes is sufficient for a party of two. In Churches, no fees are necessary, except or special services.

Language.—Every traveller should, if possible, make himself acquainted with the language of the country, before he goes to travel in it; even a very slight knowledge of it will often be found useful. To know the language is to have a double purse. The French language will suffice for Belgium, the Rhine and its vicinity, Switzerland, Piedmont, and the chief towns of Northern Italy. It is not generally known in the German States, nor in the provincial towns of Italy, nor in the Tyrol. In most of the Continental Hotels the manager or some of the waiters speak English. Parties employing an interpreter, should be particular in their arrangement with him as to amount of remuneration. For Vocabulary of common words and phrases see Special Edition of this *Guide*.

Expenses—Money.—Unless the expenditure be very lavish, 20s. per day for each individual ought to cover all expenses; except for long railway journeys. Pedestrian excursions in remote situations can hardly exceed 8s. per day, exclusive of Guides when necessary. The chief expense arises from locomotion. The above amount will be very probably near the mark when the tourist journeys 70 or 80 miles a-day; if only 40 or 50 miles, the expenses, then, are not likely to be more than 15s. per day. Bank of England notes will be found the most economical and safe mode of carrying Money on the Continent to meet expenses. For particulars, see page lii. At the Railroad Stations you are liable to be cheated by sovereigns being reckoned as Napoleons. English sovereigns ought to be taken at all the hotels at their current value.

General Agency – 1, Rue Scribe, Paris.

Barometer.—The weather glass and rainfall, in France, are measured by the Millimètre: 1-1000 th of a Mètre = 4-100 ths or an Inch. Thus, 724 Millimètres correspond to 28½ inches; 736½ Mills. to 29 inches; 749½ Mills to 29½ inches 762 Mills to 30 inches; 775 Mills. to 30½ inches. One Centimètre = 10 Millimètres = 4-10ths of an Inch; or 2½ Cs. = 1 Inch. An inch is the diameter of a halfpenny, or the width of the right-hand Table, p. xlvi.

Weights and Measures.—See p. ii. (facing title) and p. 350 (France). For **Money**, see p. lii. A Penny weighs ½ oz. or 10 grammes; a halfpenny, ¼ oz.; and the two together are other more than ½oz., the standard weight for letters to the Continent. A Penny is 1-10th foot in diameter; A French centime or cent. weighs a gramme; its diameter equals a centimètre; and 100 cents in a row equal a mètre.—For comparison, remember that the Mean Temp. of London is 38° (Jan.) to 64° (July); and the Rainfall, 25-6 inches. Deaths are about 24 per 1,000.

(this width = 1 inch=2½ Centimètres.)

Thermometer Table.—Réaumur's thermometer is generally used in Germany, and the Centigrade (or Celsius) in France; either, especially Centigrade, is simpler than our Fahrenheit. To convert degrees of Réaumur into Fahrenheit—if above freezing-point, multiply by 2¼ and add 32° ; if below, multiply by 2¼, and subtract from 32°. Thus, for 17° R. (above), and 8° R. (below) $17° R \times 2\frac{1}{4} = 38\frac{1}{2}°$; add 32° = 70½° F. of heat. $8° R \times 2\frac{1}{4} = 18°$; sub. 18° from 32° = 14° F. of cold.

To convert degrees of Centigrade into those of Fahrenheit, multiply by 1 four-fifths, and add 32° if above freezing-point; or subtract if below it.

The table annexed will enable the traveller to equalise at a glance the degrees of Réaumur and Centigrade with those of Fahrenheit.

Kilomètre and Mètre Tables (as above).

All distances on Railways in France, Spain, Belgium, Switzerland, Germany, and Italy, are now measured by the *Kilomètre* (kilometer, chilometro, &c.) equal to 1000 mètres. One mètre = 1·094 English yard = 3·281 feet = 39·37 inches = 1 1-10th yard nearly. Hence, to turn mètres into yards, add 1-10th; to turn yards into mètres, subtract 1-11th. Hence, again, 10 mètres = 32·81 feet; 100 mètres = 328·1 feet; 1000 mètres (or kilomètre) = 3,281 feet, or 5 furlongs nearly. Hence, a kilomètre = 5-8ths of a mile, nearly; or 6 miles = 10 kilomts.; or 10 miles = 16 kilomts., nearly.

In using these Tables, remember that 8 kilomts. (for example) being 1·863 miles, 30 kilomts. will be 18·63 miles; 300 will be 186·3; and so on. Hence, to turn 306 kilomts. (for instance) into miles, say 300 = 186·3; 60 = 37·3; and 6 = 3·7; total, 227·3 miles.

Sunday Services Abroad.—Notices of these are inserted from information sent to the Editor; and changes in the names of Chaplains and Ministers, or in the times, &c., should be notified as soon as possible. CHURCH OF ENGLAND SERVICES are mostly supplied by two London Societies—the *Society for the Propagation of the Gospel in Foreign Parts* (19 Delahay Street, Westminster, S.W.), founded 1701; and the *Colonial and Continental Church Society* (9 Serjeants' Inn, Fleet Street, E.C.), founded 1851. A few Embassy and Consular Chaplains are still appointed or partly supported by the Foreign Office. All Foreign Chaplains are licensed by the Bishop of London or the Bishop of Gibraltar; the latter having the superintendence over most of these on the islands and shores of the Mediterranean. There are above forty Continental Chaplains nominated by the Society for the Propagation of the Gospel; with whom it is a rule that the Holy Communion is celebrated every Sunday, and the offertory is devoted to the maintenance of the Chaplaincy. About 115 Chaplains (one-third being permanent) are nominated by the Colonial and Continental Church Society, to minister to residents and travellers on the Continent, at places where artisans, miners, &c., are settled, and where invalids resort in winter or travellers in summer. These places will be found in the *Guide*.

The Mission Stations of the *Vaudois, Valdese*, or *Waldensian Church, in Italy*, are given from a list furnished by the Secretary, at the Office, 118 Pall Mall, S.W. For further particulars see Foreign Evangelization Society's "Guide to Evangelical Work on the Continent," J. Nisbet & Co.

Practical Information for Travellers in France.

Residents Abroad.—Persons intending to live in a foreign country should be careful to make themselves acquainted with its laws (often more stringent than English laws), so far as they affect the payment of taxes, hire of apartments, houses, and servants; births, marriages, and deaths; making of wills, succession of property; sport, and other points.

TRAVELLERS CARRYING FIRE ARMS.—In answer to numerous correspondents, we are enabled to state, that Travellers (especially British and American) are allowed to take with them, as part of their personal luggage, one sporting gun, one sporting rifle, and one revolver or pistol, providing the last is not under 15 centimètres, or 6 inches in length, on declaring the same to be *their private property*; but military weapons, cartridges or gunpowder, are strictly prohibited, without previous permission of the Minister of War at Paris.

IN TAKING FURNISHED APARTMENTS, the stranger should have a written agreement with an inventory, signed by both parties, containing a precise account of the furniture, even to a plate. He should stipulate therein that the landlord pays the furniture tax; otherwise the tenant will have to pay, even if the furniture be the property of the landlord. SUMMER VISITORS are not subject to the payment of taxes; personal and furniture taxes are levied only on foreigners who are residents at the time the annual lists are revised. RENTING HOUSES.—All rent is paid in advance quarterly, but if a house is rented for a term, the tenant cannot remove his goods therefrom until he has paid the entire rent to the landlord, of the whole term. A TENANT must answer for the effect of fire in his rooms, unless he can show that the fire was occasioned by accident. SERVANTS hired by the day are paid by the day. If hired by the year they are paid monthly, and entitled to 8 days' warning. When a servant gives warning, the 8 days are not payable unless the master requires his services.

DOGS.—The owners have to pay a tax of 12 francs each per annum

NOTE.—It is customary abroad to touch or remove the hat when entering an office or shop, or when addressing a gentleman in the streets or elsewhere.

II.—POSTAL REGULATIONS.

Letters.—It is always safest to direct letters (paid) to the care of a Banker or even an Hotel; as Letters and parcels addressed "Poste Restante" are apt to get lost. Travellers on the Continent are advised to see that their letters for India, &c., are stamped.

Postage.—In the General Postal Union (Class A) comprising all Europe, Egypt, Persia Canada, and the United States, the postage on Letters from England to any country in the Union is 2½d., under ½oz.; post Cards are 1d.; Newspapers 1d. per 4oz.; Books, ½d. per 2oz. The return postage is the same, as nearly as the money and weights of the country will allow. For example, Letters from France are 25 cents. for 15 grammes; Post Cards are 10 cents; Newspapers are 5 cents for 50 grammes. Within the Union, Prepayment by postage stamps of the country from which the Letter is sent, is compulsory. If a Letter be insufficiently prepaid, the extra charge is 2½d per ½oz. English Stamps, &c., can be used only in the United Kingdom; in Germany, German Stamps must be used; and so on. For Registered Letters, 4d. extra is charged. **Newspapers** must be paid for at the rate of 1d. per 4oz., as above-mentioned (not ½d. as for inland postage), and must be posted within 8 days, otherwise they are not sent. Newspapers are not allowed to be sent through the post, in Russia. For English and other European Colonies outside the above Union, and for India, see *Postal Guide* (Class B.). Post Cards are not forwarded to India.

Money Orders.—Can be obtained between England and the following Countries:—Belgium, Denmark, France, Germany, Italy, Netherlands, and Dutch Settlements, Norway, Switzerland, and for Egypt, India, United States and the Colonies, at a commission of 9d. up to £2: 1s. 6d. to £5; 2s. 3d. to £7; 3s. to £10. See *Postal Guide*. For equivalent amounts see Money Table, p. lii.

Poste Restante.—Letters for the Continent should be addressed very legibly, particularly the *Christian* and *Surname*, which latter should be UNDERLINED, omitting "Esquire," "Bart.," or other title; which Officers of Foreign Post Offices are apt to take for a name. As they often find great difficulty in reading English writing, and especially in the pronunciation of English names, persons applying for letters should present their *Cards* with their names written plainly.

Foreign and Ship Letter Mails made up in London.—Letters for the Foreign Mails are received at St. Martin's-le-Grand up to 6 o'clock; from 6 till 7.0, on payment of 1d. extra; up to 7.15, 2d. extra; up to 7.30, 3d. extra; up to 7.45, 6d. extra. N.B.—Letters for posting found among passengers' baggage at the French or English Custom-houses, subject the sender and bearer to the risk of penal consequences.

Printed Papers.—A distinction is now made between foreign Book packets, Patterns, and Commercial papers. In Class A, the charge for Patterns is 1d. for 2oz.; for Commercial papers, 2½d. for 4oz.; Books being ½d. for 2oz., as above mentioned. If the usual regulations be not strictly observed, or if the whole postage be not paid in advance the packets will either be detained, or forwarded charged as unpaid letters.

Indian Parcel Post.—Weekly, for India and Ceylon, conducted by the Peninsular and Oriental Company, 122, Leadenhall Street, London, at the rate of 1s. per lb; or 6d. per lb. for Books. Parcels not to exceed 2 feet by 1 foot; nor 80 lbs. weight for India, or 25 lbs. for Ceylon.

Telegrams—sent by the Submarine, Eastern, Great Northern, Indo-European, Anglo-American, and other Companies. From 1st April, 1880, the lowest rates from the United Kingdom to the principal countries in Europe are as follows, *for each word*:—Austria 4½d.; Belgium 2d.; Denmark 4d.; France 2½d.; Germany 4d.; Greece 7½d.; Holland 3d.; Hungary 5d.; Italy 5d.; Norway 4d.; Portugal 6½d.; Roumania 5d.; Russia in Europe 9½d.; Spain 6d.; Sweden 5½d.; Switzerland 4d.; Turkey in Europe 8d. To certain other places, viz.:—Aden 3s. 9d.; Australia 10s. 8d. to 10s. 10d.; Brazil 9s to 16s. 2d.; Canada 3s.; Cape 8s 9d. to 9s. 3d.; Ceylon 4s. 9d.; Chili 21s. 4d.; China 8s. 4d.; Cuba 5s. 1d. to 6s. 3d.; Cyprus 1s. 0½d.; Egypt 1s. 7d. to 2s.; India 4s. 3d. (British Burmah 4s. 6d.); Japan 9s. 3d.; Java 6s. 10d.; Madeira 1s. 7d; Mauritius—to Aden, thence by post; New Zealand—to South Australia, thence onward; Panama 11s. 8d. to 12s. 6d.; Penang 5s. 5d.; Persia 1s. 7d. to 3s. 9d.; Peru 27s. to 27s. 5d.; Singapore 6s. 3d.; United States 3s. to 3s. 10d.; West Indies 3s. 7d. to 17s. 1d.—See *Postal Guide* for furthur particulars.

III.—INFORMATION RESPECTING PASSPORTS.

Travellers or Visitors to any part of Europe who desire to avoid delay, trouble, or unnecessary expense, can obtain their Passports through the agency of our London Publishers, W. J. ADAMS & SONS, 59, FLEET-STREET, E.C., who will see that every thing necessary is done in procuring the proper *visa* for a journey to or through any Country on the Continent; in which case it will be necessary to forward them the Letter of Application, or apprize them by letter or otherwise, that such Letter of recommendation, or Certificate of Identity has been duly forwarded to the Foreign Office; and they will then take immediate steps to procure the Passport and the necessary *visas*, &c. *By this arrangement parties resident in the country are saved the trouble of coming to London, as it can be forwarded to them by post (en règle.)*—See page xlix.

Fee for obtaining Passport 1s. 6d.; ditto for each *visa*, 1s. 0d. Passport cases from 1s. 6d. to 6s. 0d. Name lettered in gold, 1s.—**Office Hours—8.0 a.m. to 6.0 p.m.; Saturdays, 8 a.m. to 2 p.m.**

Foreign Office Passports are granted upon the application or recommendation of any *Banker or Banking Establishment*, in any *part* of the *United Kingdom*; enclosed under Cover and SEAL of the Establishment, and directed to Her Majesty's Secretary of State for Foreign Affairs in form as follows.—

MY LORD,

(Place and Date.)

We request that your Lordship will authorize the grant of a Passport for travelling on the Continent, Spain, (or elsewhere), to A. B., a British subject, (or C. D., a Naturalized British Subject (residing at accompanied by his wife, &c. (as the case may be).

We have the honour to be, my Lord,

Your most obedient Servants,

Her Majesty's Secretary of State for Foreign Affairs.

In the absence of a Banker's application or recommendation, a *Certificate of Identity* must be procured, signed by a *Mayor*, *Magistrate*, *Justice of the Peace* a *Minister of Religion*, *Physician*, *Surgeon*, *Solicitor*, or *Notary*; and such certificate of Identity must bear the signature of the applicant, in addition to the signature of the party giving such certificate.

MODEL FORM *of Certificate of Identity to be* written out in full, *signed and sealed by the person giving it; and also by the person in whose behalf it is granted* —

(Name of place, and day of the month)

The Undersigned, Mayor of (*Magistrate, Justice of the Peace, Minister of Religion, Physician, Surgeon, Solicitor, or Notary*, as the case may be), residing at

hereby certifies that *A. B.* (*Christian and Surname to be written at length*), *whose signature* a British subject,

is written at foot, is a naturalized British subject, and requires a passport to enable him proceed to

to travel on the Continent (*accompanied, as the case may be, by his wife,——sons,——daughters, with their* a British subject,

tutor named C. D. (*Christian and Surname to be written at length*), a naturalized British subject

governess, and maidservant [*or servants*], *and manservant* [*or servants*], *named E. F., a British subject* [*or subjects*], *and a courier, named G. H., a naturalized British subject.*)

(Signed)

Seal.

(With the usual signature.)

Signature of the above-named

NOTE.—*When the various members of a family travel together, they may be included in one Passport, but the degree of relationship should be stated: for example—Mr.....,* (*the christian as well as surname must be given in full*), *travelling on the Continent, accompanied by his wife, and.....sons, and.....daughters, with*

..... *woman servant (if any), all British subjects. If attended by a man servant, his name in full must be stated, and he must be a British subject; if a foreigner, he must obtain a passport from his own government. Friends travelling in company, although not related, may also be included in one Passport; but in this case, each of their names and addresses should be given in the application.*

Passports Abroad.—As every police official abroad is authorised to inspect a Passport it must, under all circumstances be carried about the person. To protect it from friction, it should be bound in a pocket-book, containing blank leaves to receive the *visas*, as the official signatures are termed, and the traveller's name.

Foreign Office Regulations respecting Passports:—

"1. Applications for Foreign Office passports must be made in writing, in a cover addressed to 'The Chief Clerk, Foreign Office, London,' with the word 'PASSPORT' on the cover.

"2. The charge on the issue of a Passport, whatever number of persons may be named in it, is 2*s*.; and if it is desired that this Passport should be sent by post, that sum must be forwarded with the application, by a Post Office order, payable at the Post Office, Charing Cross, London, to the Chief Clerk of the Foreign Office, Francis B. Alston, Esq. Postage stamps will not be received.

"3. Passports are granted only to British-born subjects, or to such foreigners as have become naturalized either by Act of Parliament or by a certificate of naturalization granted by the Secretary of State for the Home Department. A 'naturalized British subject,' will be so designated in his passport; and if his certificate be dated subsequently to the 24th of August, 1850, and previously to the 1st of August, 1858, his passport will be marked as good for one year only; or should the certificate be dated subsequently to the 1st of August, 1858, his passport will in that case be marked as good for six months only, except in cases where a license for a longer period of residence abroad has been granted by the Secretary of State for the Home Department; but this regulation will not preclude any person from obtaining at the Foreign Office, at any future time, on his producing his old passport, a fresh passport for a further limited period, without a fresh charge. A Foreign Office Passport granted to a British-born subject, 'or to a naturalized British subject,' who has been naturalized by Act of Parliament, or whose Certificate of Naturalization is dated previously to the 24th of August, 1850, is not limited in point of time, but is available for any time, or for any number of journeys. Aliens naturalized under the Naturalization Act, 1870, (33 Vict., c. 14), will also receive Passports unlimited in point of time, but subject to the qualification mentioned in the 7th Clause of the Act.

"4. Passports are granted to all persons either known to the Secretary of State, or recommended to him by some person who is known to him; or upon the application of any *Banking firm* established in London or in any part of the United Kingdom; or upon the production of a *Certificate of Identity*, signed by any Mayor, Magistrate, Justice of the Peace, Minister of Religion, Physician, Surgeon, Solicitor, or Notary, in the United Kingdom. In certain cases a Certificate of Birth may be demanded.

"5. If the applicant for a passport be a naturalized British subject, his certificate of naturalization, with his signature subscribed to the oath printed on the third page of it, must be forwarded to the Foreign Office with the certificate of identity granted on his behalf; and his certificate of naturalization will be returned with the passport to the person who may have granted the certificate of identity, in order that such naturalized British subject may sign the passport in his presence. The Agents at the outports are not authorised to grant passports to naturalized British subjects, and such persons, if resident in London, should apply *personally* for their passports at the Foreign Office.

"6. PASSPORTS ARE ISSUED AT THE FOREIGN-OFFICE, BETWEEN 11 AND 4 ON THE DAY FOLLOWING THAT ON WHICH THE APPLICATION FOR THE PASSPORT HAS BEEN RECEIVED AT THE FOREIGN OFFICE.

"7. A Passport cannot be issued on behalf of a person *already abroad*; such person, being a British-born subject, should apply for one to the nearest British Mission or Consulate. A passport cannot be issued abroad to a naturalized British-subject except for a direct journey to England, or in the case of a Colonial naturalized subject for a journey back to the Colony where he has been naturalized. Neither can a passport granted to a naturalized British subject for a limited period be renewed by Her Majesty's Diplomatic or Consular Agents in Foreign Countries; but only at the Foreign Office.

"8. The bearer of every passport should sign his name clearly as soon as he receives it: as otherwise the *visa* may be refused, or the validity of the passport questioned abroad."

Passports are always useful and with some exceptions are always necessary abroad. They are granted for the protection of English Travellers, and in deference to the police regulations of foreign governments. They are particularly required for **Austria-Hungary, Greece, Spain and Cuba, Egypt** and are indispensable for **Portugal, Russia, and Turkey**; the visa or visé (countersignature), for which must be previously obtained in England at the respective Consulates.

Austria-Hungary.—Passports are required on all the frontiers of the Empire.

France.—Travellers not provided with Passports, are expected, when required, to prove their *identity and nationality*.

Germany.—The German *visa* is required for Travellers intending to visit Berlin; but not for other parts of Germany.

Italy.—In consequence of some arrests of unoffending British by officious Police Agents, Travellers should be careful to carry their passports about them, in order to prove their identity or nationality.

Roumania.—Every foreigner on arrival must procure a permit of residence from the nearest Prefect; giving up his passport if his stay is to exceed 30 days: or getting the permit endorsed on the passport, if for a less period. Follow the guard who takes your passport, and see that it is viséd and returned to you.

Russia.—Travellers to Russia should not quit England without a *visa* from the Russian Consulate in London. Members of the Medical Profession proceeding to Russia with a view of practising there, must first obtain a diploma from St. Petersburg. Governesses must obtain a Certificate of Competency from the Russian Consul in London, which will be granted upon production of proper testimonials of character and ability: fee, 3s. 3d.

United States of America.—*Minister*—His Excy. Honble. J. Russell Lowell. *Secretary of Legation*, William J. Hoppin, Esq. 95, Westbourne Road; *Assistant Sec.*, F. S. Nadal, Esq. *Office of Legation*, "Members" Buildings, Victoria Street, corner of Great Chapel Street, Westminster, S.W. Office Hours, 11 to 3. Passports and Visas are granted to American citizens travelling on the Continent of Europe; but the presence of the parties is absolutely necessary, in order that they may subscribe to the oaths which the regulations of the department prescribe.

UNITED STATES CONSULATE.—General Badeau, Consul General; Office, Winchester House 53A, Old Broad Street, E.C. J. Nunn, Esq., Vice Consul-General.

UNITED STATES DISPATCH AGENT, B. F. Stevens, Esq., 4, Trafalgar Square, Charing Cross.

AMERICAN CONSULS ON THE CONTINENT OF EUROPE: AUSTRIA-HUNGARY—at Prague, Trieste, and Vienna. BELGIUM—at Antwerp, Brussels, Ghent, and Liége. BRITISH POSSESSIONS—Gibraltar and Malta. DENMARK—at Copenhagen and Elsinore. FRANCE—at Bordeaux, Boulogne, Havre, Lyons, Marseilles, Nice, Paris, and Reims. GERMANY—at Altona, Barmen, Berlin, Bremen, Breslau, Brunswick, Chemnitz, Cologne, Dresden, Frankfort-on-Main, Hamburg, Leipsic, Ludwigshafen, Mannheim, Munich, Nuremberg, Sonnenberg, and Stuttgart. GREECE—at Patras. ITALY—at Carrara, Florence, Genoa, Leghorn, Messina, Milan, Naples, Palermo, Rome, Turin, Venice. NETHERLANDS—at Amsterdam, Groningen, Middelburg, and Rotterdam. PORTUGAL—at Lisbon, Oporto, Madeira, and Fayal (Azores). ROUMANIA—Bucharest. RUSSIA—at Archangel, Moscow, Odessa, and St. Petersburg. SPAIN—at Alicante, Barcelona, Bilbao, Cadiz, Carthagena, Corunna, Denia, Ivica, Malaga, Port Mahon, Santander, Seville, Valencia, and Vigo. SWEDEN AND NORWAY—at Bergen, Christiania, Gothenburg, and Stockholm. SWITZERLAND—at Bâle, Geneva, and Zurich. TURKEY—at Beyrout, Cairo (Egypt), Constantinople, Jerusalem, Smyrna. The above will be useful in many respects to British as well as American travellers; as in many towns there is an Agent accredited from the United States, where a British Consul is non-resident—in which case English and Americans will meet with equal courtesy and attention.

General Remarks.—Although British subjects are free to enter France and Belgium without Passports, and the rules about Passports have been virtually relaxed in several other Countries, nevertheless, British subjects about to visit the Continent are recommended not to omit to provide themselves with a Passport: for even in those countries where it is no longer obligatory, it is found to be convenient, as offering a ready means of identification, and particularly when letters have to be claimed at a *poste restante*. It frequently secures admission to Public Buildings, Museums, &c., when otherwise closed; and it may serve to protect the Traveller against the ignorance or caprice of local officials, who have it in their power to make themselves disagreeable when they choose. Out of the beaten track in France, foreigners appear to be regarded everywhere with suspicion.

FOREIGN AMBASSADORS and MINISTERS (styled "His Excellency.")

AMERICA (UNITED STATES OF). See above.

ARGENTINE STATES (LA PLATA)—Dr. Don M. Garcia (at Paris), *Min.*

Venezuela.—F. Hemming, Esq., *C.*, 47, Moorgate Street. *Passport* required; *Visa* unnecessary.
Zanzibar.—

IV.—FOREIGN MONEY—LETTERS OF CREDIT.

Circular Notes of small denomination are now issued (£10, £20) for the convenience of the traveller, payable at all the principal cities and towns on the Continent of Europe, and the United States and Canada as well as Scotland and Ireland, Madeira, &c. They are issued by most of the principal London bankers and form a very safe and convenient kind of Letter of Credit. The arrangements for cashing them in the various countries through which the traveller may have to pass are very simple and efficient. A letter indicating the names of the various correspondents abroad, accompanies them, which must be produced on presenting a note for payment; and we should advise tourists as a precaution to keep the letter always separate from the notes. The Cheque Bank, at 124, Cannon Street, and 20, Cockspur Street, will be found extremely convenient to Continental Travellers, as their Cheques may be filled up for amounts from £1 and upwards, and are payable at any Bankers in the principal Continental cities.

Drafts and Letters of Credit Payable in Foreign Money, may be had on the principal towns abroad, from Foreign Bankers in London, these are subject to no deduction for exchange or commission, the sums payable being fixed on this side: they only require a foreign bill stamp according to the law of the country where they are made payable.

The best money for travellers proceeding to Germany are 20 Mark Gold Pieces, or Mark Notes, which now circulate throughout the German Empire. Prussian marks are the best silver coins. The traveller should be always provided with small change in the legal current coin of the country through which he passes, as every exchange entails a consequent loss. English Money and Bank Notes can be exchanged in the principal Continental Cities, but it is better to be provided with Foreign Currency before leaving for the Continent; especially as half-sovereigns, etc, are sometimes refused abroad, or changed under value.

Digitized by Google

Coins abroad, subject to variations according to the fluctuations in the rates of exchange. Corrected monthly by **Messrs. A. MEYSER & CO.**, 21, Cornhill, London, E.C., from whom drafts and letters of credit on the principal towns abroad may be obtained.

NOTE (to Paris).—The FARES *via* Paris or Cologne to places beyond are calculated at the rates of the direct through Fares by Express Trains; but we give the Fares by other Routes as well, for the Traveller to select from.

The Through Ticket may afford some convenience to a traveller going direct to his destination; but to persons making a rambling or discursive tour on the Continent, "fancy led," they are an inconvenience; for a Tourist once in possession of such a ticket is no longer free—the ticket, and not his will, must be his guide; he cannot deviate from the route it indicates.

GREAT LUXEMBOURG RAILWAY. STATION DU LUX MBOURG. From London to the Baths of Germany, the Rhine and Switzerland via Brussels, the Meuse, and the Moselle.

Travellers intending to take this Route by Calais or Ostend, must book from **London to Brussels only** then from Brussels to Treves by Luxembourg, thence to Coblence by steamer and thus enjoy a most delightful trip down the Moselle, the scenery being most beautiful and picturesque through the whole of this valley, *i.e.*, the Rhine in miniature. Treves is one of the sweetest spots on the Continent, and is admirably situated for excursions into the Black Forest. This route is also the cheapest and shortest between London, Switzerland, and Vienna.

BRUSSELS to NAMUR and LUXEMBOURG.

DUTCH RHENISH RAILWAY.

Direct traffic with the Bathing-place Scheveningen, situate about an hour from The Hague, is opened by means of Special Tram Railway. Direct Tickets may be had, and through Registration of luggage to that place, to Scheveningen, and *vice versa*. Travellers are particularly requested that these Tickets and Through Registration may only be obtained from and to the stations of the Dutch Rhenish Railway Company.
